

NETWORK STATUTE

Our Mission

The Reintegration Through Sport Network aims to bring together existing institutions, organization, NGO and individuals working both at the Addiction Treatment and the Adventure Therapy field on a National, European and global level, to contribute to improvements of the treatment and social reintegration of people with addictive behaviors.

Our mission is to collaborate, connect and exchange experiences and knowledge with a view to providing effective addiction and mental wellbeing treatment.

Our vision

- ❖ Increased knowledge – ongoing learning and sharing best practices and applications of Adventure therapy on Addiction Treatment.
- ❖ To raise the awareness of public, private and civil society institutions of the benefits of Adventure Therapy in the addiction treatment.
- ❖ Connect with other organizations, institution and individuals in order to create new partnerships and collaborations.
- ❖ Finding resources/funding for projects in the field of Physical Activity, Addiction Treatment and Adventure Therapy
- ❖ The continuation of the network for the next 5 years.

Our Principles

- ❖ Establish a process for exchanging knowledge and relevant information
- ❖ Cooperation for information sharing and transmission of experiences
- ❖ Open communication and an exchange of information between the members of the network, addressing their initiatives and proposals
- ❖ Respects the institutional/individual diversity of its members
- ❖ Promote of the internal/external participation
- ❖ Cooperation with other bodies, institutions and individuals on a National, European and global level.

- ❖ Insurance of the transparency, security and trust

Our Goals

- ❖ To promote a forum for networking, communication and collaboration by knowledge exchange
- ❖ To foster experiences exchange in order to strengthen initiatives in addiction treatment
- ❖ To establish channels for dialogue and cooperation in order to systematize and disseminate knowledge
- ❖ To provide assistance and knowledge transfer to the members that request it
- ❖ To promote cooperation between institutions, organization etc that enable the development and execution of projects of relevant interest
- ❖ To promote all the relevant documents for disseminating and reporting the results of the project activities
- ❖ To create a Website and Social Media Pages as a virtual meeting places for exchanging the experiences, knowledge management and dissemination. The website will also use as an instrument for disseminating the news and activities of the project
